Subject Proposed meeting with Corps to discuss 404 jurisdictional  
issues in Portland Harbor

Tom: I left you a voice mail message a little while ago. We would like to see if we can schedule a meeting with you to discuss the subject topic. We realize this is coming up fast, but we would like to see if we can schedule it for Monday afternoon the 9th. I believe that also works for DEQ. I expect to be in Portland on the 10th in the afternoon for a follow-up meeting with the Ports and the Corps on the Sediment Evaluation Framework and I would like to take the opportunity to meet with you too, as our travel money is always short. We needed the chance to brief our management on the issue and allow DEQ to do the same before we let you know. Possibly Tuesday morning would also work, but I'm not sure if DEQ can make it then.

We have prepared a draft agenda, but I want to give DEQ a chance for input before we send it to you.

Let me know if this date is possible for you.
